SOLUTIONS & SERVICES

<p>FranConnect will update the existing integration with Keboola by conducting the following work.</p> <p>When a task or meeting is completed, it erases it from my calendar. Is there a way to keep it there and just do a "strikethrough" mark to show that it's completed (like ACT)? It's often helpful to be able to look back on my calendar to see when certain events were, etc. Is there a way if clicked "Add to Calendar" the task stays on the calendar and when completed, it has a strikethrough. If not added to calendar, then a search on completed tasks can be done for this who don't want to see it on the calendar.</p> <p>Effort Estimate: 19 hours x \$80/ hour = \$1,520</p>	\$1,520
SubTotal	\$1,520.00
Valued Customer Discount (executive approved JG)	\$760.00
Total	\$760.00

Custom programming beyond the scope of the project described earlier in the document, such as modifying modules, customization beyond time estimate, additional programming changes, adding new features, customizing additional reports and adding/modifying data forms, shall be billed at the rate of \$80 per hour. Data Migration costs are dependent on requirements and are not included in the above costs. Any travel and per-diem costs are not included.

By authorizing FranConnect to proceed with this custom development effort, the customer acknowledges that future system upgrades will require a fee to carry the customization through to the new version.
